Cigarette bottle

Sb 1/2 impression of specially made component.

which is shape of bow. Holds a lot, must be careful with weight distribution though. So won't sit funny. Inside of bow looks round just a little smaller than normal.

Several layers of airtight containers.

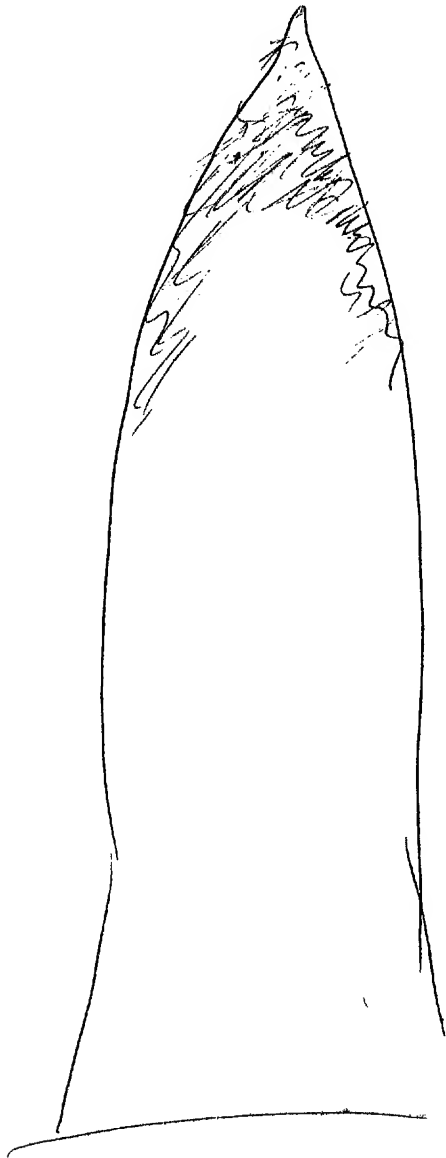

Drugs are within something, that's within something that's within something. All something's are airtight. Then placed in component. No motion or rattling when underway.

Sb 1/2 substance is white - pliable.
